

RFP#15-042-20

Information Service Mobile Data Communications System

Addendum #1 – Questions & Answers

- 1) Computer: Are you looking for a traditional clamshell computer a la a traditional Toughbook like machine, or a ruggedized tablet? The 13.1 inch criterion for screen size drastically reduces the amount of tablets available. Do you have an example of the **type** of computer you are looking for?

As per the RFP:

The mobile, in vehicle, computing environment will utilize **ruggedized** Microsoft Windows Based **Tablet** Computers...

13" or larger viewable screen area, Mil-Spec rated.....

- 2) Dual Factor: What is the go forward with dual factor? Is it user based, hardware based, etc....

As per the RFP:

Configuration must meet applicable Criminal Justice Information Services (CJIS) standards: (CJIS Policy Number: CJISD-ITS-DOC-08140-5.1 section 5.6)

Examples:

Something a person has: in order to login/gain access the user must also have something in their possession, such as a token or a smartcard, one time PIN etc.

Something a person is: also sometimes referred to as 'biometrics'. This may be a fingerprint, retinal pattern scan, or facial recognition/face geometry
