

RFP#16-029-34 Annex Window RFP Addendum #1

Updated picture file attached on website.

Quote to specify gauge of flashing for windows and roof edge flashing

Caulk all windows and doors from ground to roof

Completion date by September 1, 2016

Sills to be replaced in two court report offices (Dave K. & Rhonda M.)

Window between conference room and Court Room #1

Alternate option of repair

Remove "short offset wall"

Shorten blinds

Replace sills

Add mullion in-line with permanent wall

Change glass to tempered

Window between Court reporter (Dave K.) and former Court Commissioner

Alternate option of repair similar to above

Bid must include patch of all water damage

Questions:

1. The scope calls for the EIFS wall "Panels" to be pressure washed, re-skinned and caulked. At the prebid meeting it was discussed to reskin the entire building. Do you want the work of re-skinning the additional portions of the building to be an alternate price?

Yes.

2. Attachment A on page 12 references UW Marinette Library – RTU Controls (not a big deal, just bringing to your attention)

This error will be noted.
