

NOTICE OF TIMBER SALE

Sealed bids will be received by the County Forest Administrator, on behalf of the Marinette County Forestry and Outdoor Recreation Committee, for the sale of timber stumpage on the following numbered areas of county forest and county land in accordance with conditions set by the Committee. All contracts will expire on September 30, 2018, except where noted. Except for lump sum jobs, contract extensions may be granted upon written request, unless otherwise noted prices increase in accordance with committee policy.

NOTE: THE MARINETTE COUNTY FORESTRY COMMITTEE WILL NOT ADVERTISE THE MINIMUM STUMPAGE PRICES. MINIMUM PRICES WILL BE KEPT BY THE COMMITTEE AND ANY BIDS THAT ARE LESS THAN THE TOTAL VALUE OF EACH SALE WILL BE REJECTED.

TRUCKING WILL BE ALLOWED FROM COUNTY C TO US HWY 8 THROUGHOUT THE YEAR EXCEPT FOR PERIODS OF SEASONAL WEIGHT RESTRICTIONS. CONTACT THE MARINETTE COUNTY HIGHWAY DEPARTMENT FOR SPECIFIC INFORMATION BEFORE YOU PLAN ON TRUCKING.

NOTE: IT IS ILLEGAL TO HAUL MORE THAN THE LEGAL WEIGHT LIMIT FROM ANY PUBLIC OR PRIVATE LANDS ONTO PUBLIC ROADS. THERE IS AN INCREASING AWARENESS OF ROAD DAMAGE TO TOWN AND COUNTY ROADS ACROSS WISCONSIN. LOGGING TRUCKS ARE BEING BLAMED FOR MUCH OF THIS DAMAGE.

NOTE: IT IS ILLEGAL TO MARK TREES ON A TIMBER SALE. NOT ONLY DOES THIS PRACTICE VIOLATE THE FORESTRY ORDINANCE BUT IT ALSO CAN CREATE CONFUSION AT THE TIME OF HARVEST.

LOGGER TRAINING

The recent forest certification effort on our public lands has heightened the requirement to “*requiring appropriate training*” of its logging contractors. This is needed to maintain certification under the Sustainable Forestry Initiative (SFI) certification standard. The requirement will apply to all Marinette County timber sales on county land sold after January 1, 2006. Marinette County Forestry will adopt training specifications of the Wisconsin SFI® Training Standard. This will align the County with requirements already in place for most of Wisconsin’s forest industry. The Forest Industry Safety and Training Alliance (FISTA) will continue to maintain loggers training records and provide much of the training. **Current SFI Training Certificates must be on file with the Forestry Office at all times.**

SNOWPLOWING

All forest roads used or constructed by a logging contractor shall be operated, maintained including snowplowing and restored prior to termination of the contract in a manner satisfactory to the Administrator.

SNOWMOBILE & ATV TRAILS

If a recreational trail passes through a sale area you must:

Maintain the area in a safe manner for recreational vehicles. Do not block the trail at any time. Keep the trail clear of slash and debris on daily basis. Park equipment and vehicles at safe distances from the trail. Decking on recreation trails is allowed only as a last resort and then as far off the trail as possible. (Snowmobile trail) Do not plow snow down to bare ground, try to maintain a packed snow base as much as possible.

CUTTING SPECIFICATIONS - ALL SALES

1. No tops are to be left hung-up.
2. All coniferous slash is to be lopped to within 30 inches of the ground, unless otherwise specified.
3. There shall be no skidding or decking of products on or across any town or county road, including ditches, or across any free flowing stream.
4. All state slash laws must be observed, particularly along any streams, state or county highways, town or county forest roads, powerline rights-of-way, designated snowmobile trails, and private property.
5. Where necessary, care and caution must be exercised to prevent damage to any residual species.
6. Trees designated not to be cut may not be removed for any reason without permission from Marinette County.
7. Trees that become hung-up in trees designated not to be cut must be removed with logging equipment.
8. Please note special cutting time periods.
9. Other specifications shall apply to specific sales as noted.

ANNOSUM ROOT ROT

Annosum Root Rot is a serious disease that is causing conifer mortality in at least 20 counties in Wisconsin, mainly by infecting freshly cut stump surfaces in pine, spruce and fir stands. Marinette County is committed to preventing its establishment and all new contracts will require contractors to chemically treat fresh-cut conifer stumps with SPORAX or CELLU-TREAT as directed in each individual sale prospectus. Marinette County will furnish the necessary chemical, dye, and hand-application equipment. Treatment shall be performed by a certified pesticide applicator, must be completed within 24 hours of cutting, and is required from April 1st to December 1st.

VARIABLE UTILIZATION BIDS

Volume estimates by utilization (species and diameter) classes will be listed. All bids must be based on round wood or whole tree not a combination of the two.

LUMP SUM SALES

Lump sum bids will be accepted on Job No. 22 only.

CHIPS

Chipping of residual materials will only be available as an option on any job that has chips listed as available in the individual sale prospectus. Chip bids will not be included as part of the total bid value, unless the sale is listed with estimated whole tree volumes. Bidders interested in adding chips to eligible sales should contact the forester or the Forestry Office to attain estimated chip volumes or for more details.

ADDITIONAL INFORMATION

Sale will be based on price per cord, per thousand board feet, or per ton. Timber to be cut will be designated by minimum cutting diameter, or heights, or by marking. Interested persons should be sure to secure full information on cutting regulations and forms for bidding by writing to or calling the County Forestry Office, 501 Pine Street, Peshtigo, Wisconsin 54157 (715-732-7525). **The Wausaukee Ranger Station has been closed to the public as a service center. To receive timber sale information and maps from foresters at Wausaukee you must call (715) 856-9178 or (715) 856-9156 for an appointment.**

Bids must be made on the form prescribed by the Committee and must be plainly marked on the outside "SEALED BID - TIMBER STUMPAGE." All bids should be enclosed in one envelope. Please note that bid forms are specific for each job. A person may bid on any or all of the designated sale areas. If a person bids on more jobs than s/he desires to be awarded, a written statement indicating the job or jobs preferred should be included with the bid. The Committee will withdraw bids of secondary choice if properly instructed.

Marinette County will not award a bid to a contractor who is not fully bonded on existing contracts and unless all scale dated more than thirty days prior to the bid opening has been turned in and paid in full.

A CERTIFIED CHECK, CASHIER'S CHECK, BANK OR POSTAL MONEY ORDER OR PERSONAL CHECK, MADE PAYABLE TO THE MARINETTE COUNTY TREASURER, IN THE AMOUNT OF AT LEAST 10% OF THE TOTAL BID MUST ACCOMPANY EACH BID. CASH WILL NOT BE ACCEPTED. LETTERS-OF-CREDIT IN THE AMOUNT OF 25% OF THE BID ARE ALSO ACCEPTABLE. THIS DEPOSIT WILL BE FORFEITED IF THE SUCCESSFUL BIDDER FAILS TO SIGN THE CONTRACT OFFERED WITHIN THIRTY DAYS. CHECKS AND MONEY ORDERS WILL BE RETURNED TO UNSUCCESSFUL BIDDERS AFTER THE SALE.

The successful bidder must be prepared to deposit an additional 15% of the bid within thirty days. The total bond deposit (25 percent) shall be held as evidence of the bidder's intention to faithfully carry out the provisions of the contract. This sum shall be refunded upon satisfactory completion of the contract. A performance bond or an irrevocable letter of credit, from an authorized bank, may be accepted in lieu of a cash deposit. Details on requirements may be obtained from the County Forestry Office.

The successful bidder must furnish a certificate of proof that s/he has Worker's Compensation Insurance at the time s/he is awarded a contract. This insurance must cover the contract period (including extensions) and all employees on the sale area. **All contractors are required to have Worker's Compensation Insurance including contractors with no employees.**

Contractors who bid as partners must provide a copy of their partnership papers at the time they are awarded a contract.

Committee policy requires that all wood must be scaled by Marinette County before being removed from the sale area or be purchased as a lump sum sale. Special exceptions must be approved by the Forest Administrator. Violation could result in citation to contractor.

New contractors who are successful bidders on more than one job are subject to the Committee's policy of only working on one job at a time, and are subject to paying scale in advance of hauling until satisfactory performance is established.

Bids will be received until 4:30 p.m., on Monday, November 7th, 2016 in the Forestry Office, 501 Pine Street, Peshtigo, Wisconsin. No bids will be accepted after the above stated hour. Bids will be publicly opened at 9:00 a.m., on **Tuesday, November 8th, 2016.** Action on bids received will be taken by the Committee at their meeting on the morning of **Thursday, November 10th, 2016.** Successful bidders are requested to call for an appointment to sign contracts the following week. There will be no public auction of unsold jobs.

The Marinette County Forestry and Outdoor Recreation Committee reserves the right to reject any or all bids and to accept the bids which they deem most reliable.

 Acres to Cut 191

Legend

- Aspen & Mixed Hardwood
- Northern Hardwood (23 acres)
- Swamp Hardwood
- Cedar
- red line
- blue line
- Snowmobile Trail
- woods road
- + section corner

Cutting Prescription & Notes:

In All sale areas, DO NOT CUT Red Pine, White Pine or Hemlock.

Aspen & Mixed Hardwood, Swamp Hardwood, Cedar sale areas: Cut all Balsam Fir and Spruce containing 1 or more 100" pulp sticks. Cut all other trees 2" and greater in size.

Northern Hardwood sale area: Cut all Ironwood 2" and greater in size. Cut all Dead Hickory. Cut all trees marked with ORANGE Paint at dbh and the stump.

Notes:

- The Northwest portion of the timber sale consists of two island pieces. The access to these pieces is across a wet marsh and stream. Due to that and to the additional concern of seasonally wet ground conditions in areas of these pieces, frozen ground will be required to access and harvest these islands.
- The other areas indicated on the map as either Swamp Hardwood or Cedar will require frozen ground to harvest. There are also smaller pockets of wetland ground found amongst all pieces of the Aspen / Mixed Hardwood areas not indicated or shown on map.
- The snowmobile trail that runs through and adjacent to the sale may not be plowed to bare ground.
- All Maple, Ash, Elm, Cherry, Oak, Hickory (both alive and dead), and Birch that does not qualify for Marinette County Log standards will be scaled as Mixed Hardwood cordwood.
- Balm of Gilead will be scaled as Aspen. Any Tamarack harvested (did not happen to fall in timber cruise) will be scaled as Balsam Fir. Spruce, Basswood, and Cedar will be scaled separate.
- Sugar Maple logs and Basswood logs will be scaled separate. Red Maple, Elm, Cherry, Oak, Hickory, and Birch will be scaled as Mixed Hardwood logs.
- This is a 3 Year Contract Job.

CUTTING REQUIREMENTS:
 THIS IS A BIOMASS HARVEST. Cut and remove from the site every entire tree which is 2" DBH and larger, EXCEPT do not harvest any oak or conifers. Harvesting cordwood is optional. If cordwood is harvested it will be scaled on the site and will be paid for at the cordwood bid rate. All biomass wood will be accounted for by using the mill scale ticket system. No piles of wood may be left on site.
 There are some small areas of steepness which must have the trees felled, but do not need to have the trees removed. All roads must be bermed after the harvest is complete. This will be a 3 year contract. All wood will be scaled as aspen.

 Acres to Cut 91

Mapped by: Phil Fritz

<u>Species</u>	<u>Estimated Volume</u>
Red Pine	300 Cords
Oak	900 Cords
White Pine	160 Cords
Mixed Hardwood	60 Cords

Cutting Requirements – Red pine thinning (north along East Cataline Rd.): Cut all trees marked with orange paint at breast height and on the stump. Red pine thinning (south portion of sale) and Oak Harvest: Cut all live and dead oak, maple, ash, birch, ironwood greater than 2 inches, spruce, aspen, and balsam fir. Cut all orange marked red and white pine. Do not cut purple marked trees. Utilization will be down to a 4-inch top. No skidding or decking of wood along town right-of-way without permission. No slash or tops are to be left hung up or across any red line, trail, wetland, road, ATV-snowmobile trail, or road right-of-way. ATV-snowmobile trail is south of northern red pine stand, if plowed in winter, leave a 4-inch base. This timber sale has areas of steep slopes, use caution around these areas.

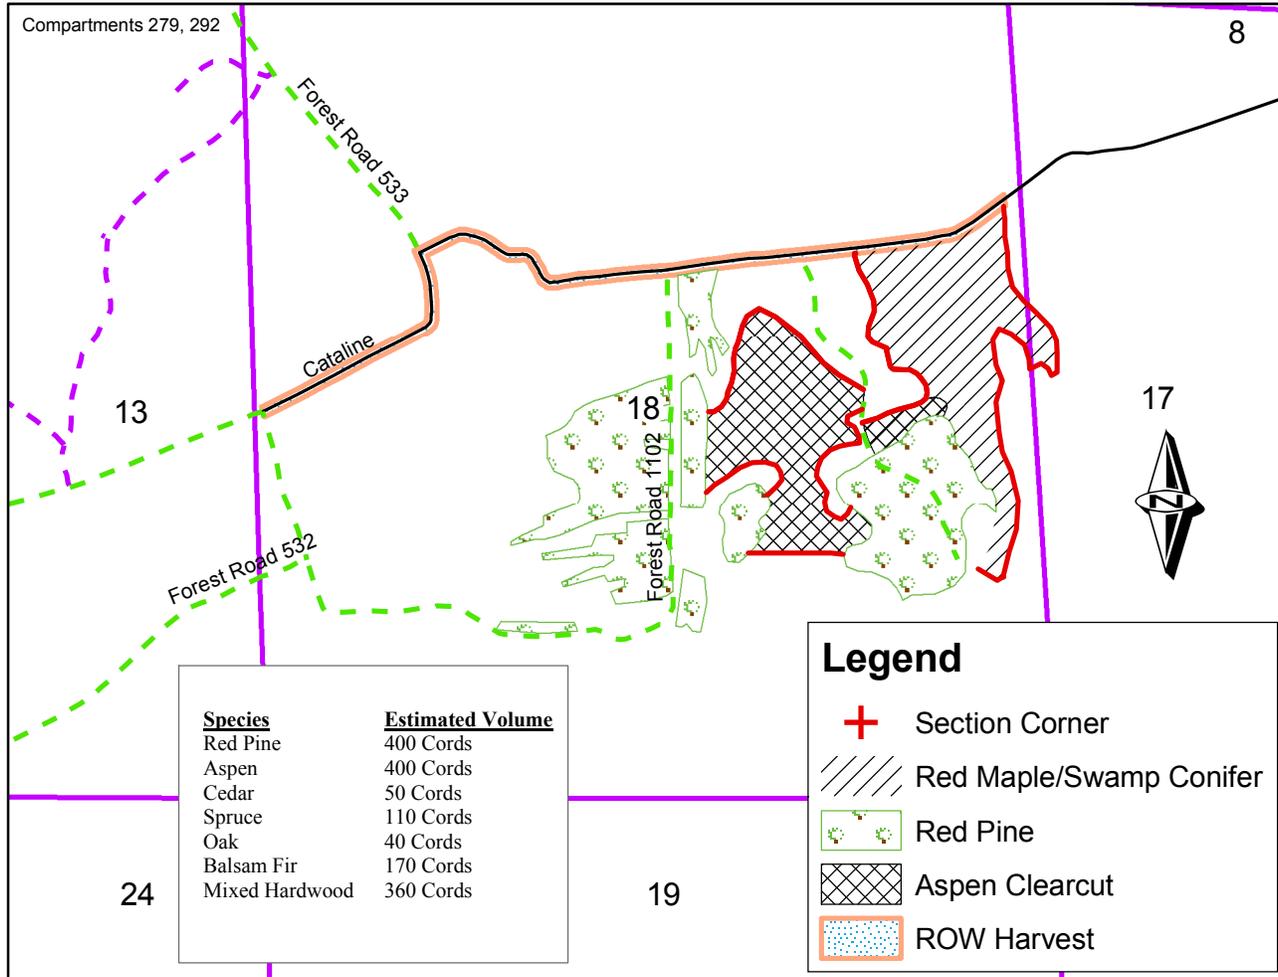

Oak wilt restriction; No cutting or skidding of wood from April 1 to July 15, this does not include the red pine stand along East Cataline Rd. Cutting or skidding only during frozen or extremely dry conditions due to the numerous drainages. Balsam fir and spruce will be scaled as white pine. Aspen will be scaled as mixed hardwood. All conifer stumps must be treated for prevention of Annosum Root Rot as required. Chipping of residue will not be allowed. About 3 culverts may be needed to access the sale. Ignore orange marks on all oaks and maple.

Forester: Andy Lange
 Cell: 715-923-8781

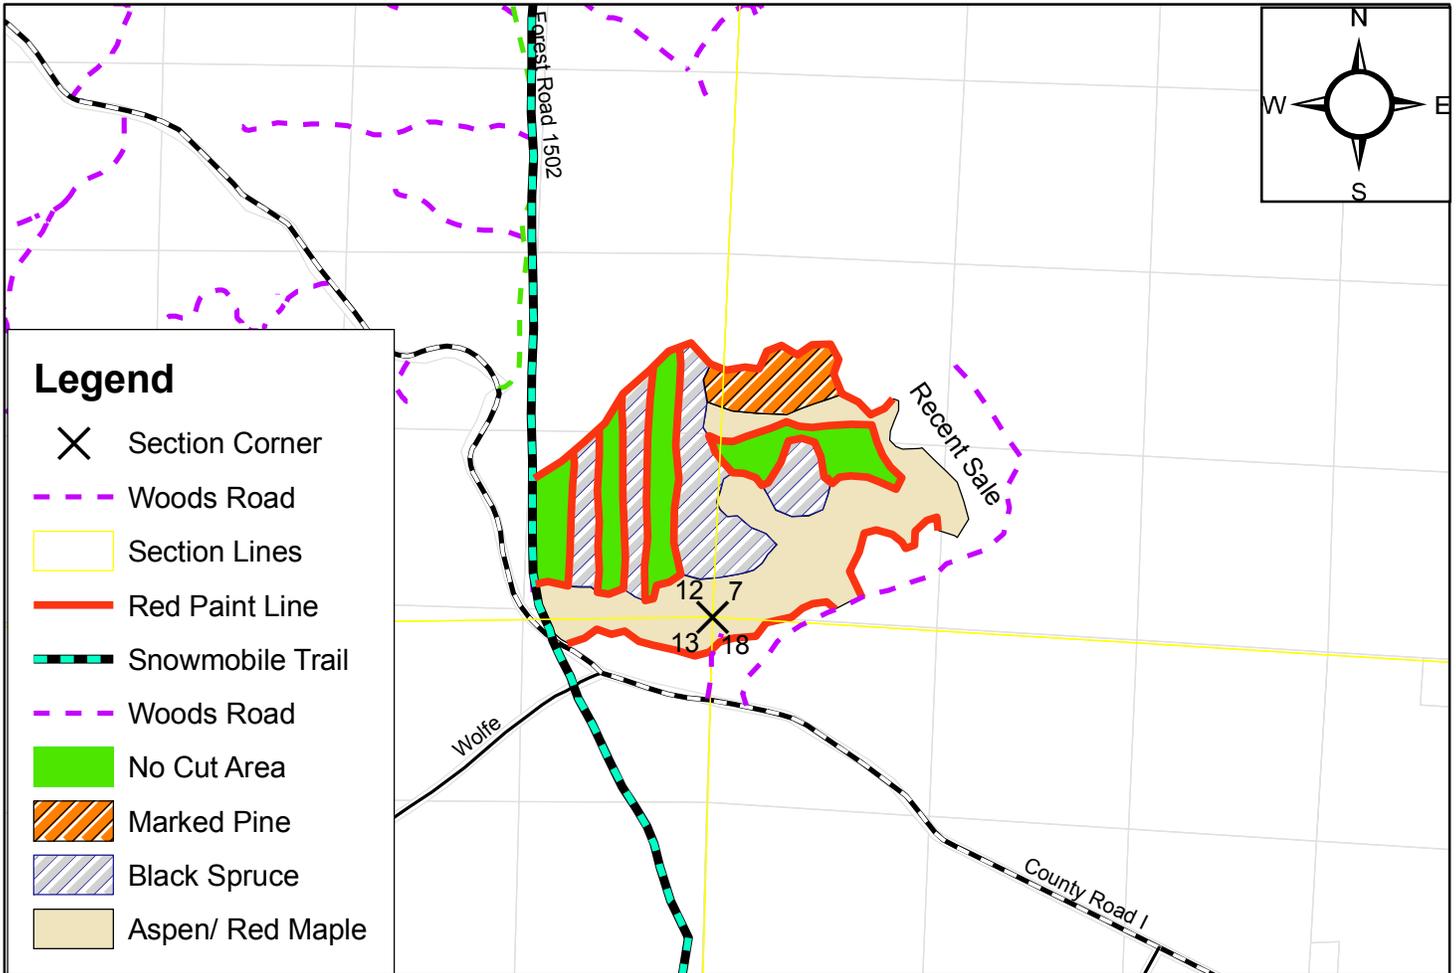

CUTTING REQUIREMENTS:

Cut all trees that are marked with orange paint at DBH and the stump. Cut all Aspen and Ironwood. All trees will be taken to a 4 inch top. All saw logs will be a minimum of 10 inch diameter on the small end. All beech, soft maple, birch, basswood, and ash will be scaled as mixed hardwood. About a 1/3 of the mixed hardwood log volume is beech. Oak and hard maple pulp will be scaled as mixed hardwood pulp. Care must be taken not to damage any of the remaining trees. All roads will be approved by the county forester in charge. No trucking/operating will be allowed on the ATV/Snowmobile trail due to safety concerns.

Last time the Aspen was harvested, access was gained through private land to the South. It is logger's responsibility to contact landowner(s) if this access is to be used.

CUTTING REQUIREMENTS & Sale Notes:

- IN ALL OF THE SALE AREAS, Do Not cut White Pine or Hemlock.
- **Cedar, Pine, and Aspen Area:** Cut Balsam Fir containing 1 or more pulp sticks. Cut all other trees 2" and greater. Non-merchantable Balsam Fir may be left uncut.
- **Oak thinning:** Cut all trees marked with orange paint at dbh and stump.
- **Oak Coppice:** Cut all merchantable trees except non merchantable Aspen.

Notes:

The Oak Thinning and Oak Coppice areas of the timber sale have an Oak Wilt restriction. No harvesting or skidding April 1st to July 15th. The year round trail that lies adjacent to the Oak Thinning portion of the sale is located on private property. No skidding or decking will be allowed on this trail. All dead Oak will be scaled as live Oak. Balsam—approx. 100 cords—and Tamarack—approx. 5 cords—will be scaled as Spruce. Balm of Gilead will be scaled as Aspen. Cherry, Birch, Maple, Ironwood, Ash, Elm, and any Basswood will be scaled as Mixed Hardwood. (This is a 3 year contract job).
