

Purchase of Three Office Workstations RFP

Addendum A, August 21, 2014

Q1. Should the furniture be laminate, or wood veneer? Do you except alternates?

A1. The furniture should be laminate with plastic trim work. We do prefer to match the existing furniture in our office.

Q2. Are full end panels okay vs open C-legs? Does the corner surface need to be curvilinear?

A2. C-legs and a curvilinear corner surface are preferred.

I have attached two pictures of two existing workstations for your reference.
