

**RFQ#17-014-25 - Pick Up Truck with Lift Gate**  
**Addendum #2, posted 3/28/17**

- 1) The plow size you indicated is typically a Western. Is that the company you are going for? I only ask because there are not any dealers in the immediate area if something were to happen with the plow down the road. BOSS, makes 8'2" and 9'2" with wings would either work or are you sold on the 8'6" only?

The minimum size would be 8'6". The plow size can be 9'2".
