

NOTICE OF TIMBER SALE

Sealed bids will be received by the County Forest Administrator, on behalf of the Infrastructure Committee, for the sale of timber stumpage on the following numbered areas of county forest and county land in accordance with conditions set by the Committee. All contracts will expire on September 30, 2020, except where noted. Except for lump sum jobs, contract extensions may be granted upon written request, unless otherwise noted prices increase in accordance with committee policy.

TRUCKING WILL BE ALLOWED FROM COUNTY C TO US HWY 8 THROUGHOUT THE YEAR EXCEPT FOR PERIODS OF SEASONAL WEIGHT RESTRICTIONS. CONTACT THE MARINETTE COUNTY HIGHWAY DEPARTMENT FOR SPECIFIC INFORMATION BEFORE YOU PLAN ON TRUCKING.

NOTE: IT IS ILLEGAL TO HAUL MORE THAN THE LEGAL WEIGHT LIMIT FROM ANY PUBLIC OR PRIVATE LANDS ONTO PUBLIC ROADS. THERE IS AN INCREASING AWARENESS OF ROAD DAMAGE TO TOWN AND COUNTY ROADS ACROSS WISCONSIN. LOGGING TRUCKS ARE BEING BLAMED FOR MUCH OF THIS DAMAGE.

NOTE: IT IS ILLEGAL TO MARK TREES ON A TIMBER SALE. NOT ONLY DOES THIS PRACTICE VIOLATE THE FORESTRY ORDINANCE BUT IT ALSO CAN CREATE CONFUSION AT THE TIME OF HARVEST.

LOGGER TRAINING

The recent forest certification effort on our public lands has heightened the requirement to “*requiring* appropriate training” of its logging contractors. This is needed to maintain certification under the Sustainable Forestry Initiative® **SFI-01617 SFI 100%** certification standard. The requirement will apply to all Marinette County timber sales on county land sold after January 1, 2006. Marinette County Forestry will adopt training specifications of the Wisconsin SFI® Training Standard. This will align the County with requirements already in place for most of Wisconsin’s forest industry. The Forest Industry Safety and Training Alliance (FISTA) will continue to maintain loggers training records and provide much of the training. **Current SFI Training Certificates must be on file with the Forestry Office at all times.**

SNOWPLOWING

All forest roads used or constructed by a logging contractor shall be operated, maintained including snowplowing and restored prior to termination of the contract in a manner satisfactory to the Administrator.

SNOWMOBILE & ATV TRAILS

If a recreational trail passes through a sale area you must:

Maintain the area in a safe manner for recreational vehicles. Do not block the trail at any time. Keep the trail clear of slash and debris on daily basis. Park equipment and vehicles at safe distances from the trail. Decking on recreation trails is allowed only as a last resort and then as far off the trail as possible. (Snowmobile trail) Do not plow snow down to bare ground. Try to maintain a packed snow base as much as possible.

CUTTING SPECIFICATIONS - ALL SALES

1. No tops are to be left hung-up.
2. All coniferous slash is to be lopped to within 30 inches of the ground, unless otherwise specified.
3. There shall be no skidding or decking of products on or across any town or county road, including ditches, or across any free flowing stream.
4. All state slash laws must be observed, particularly along any streams, state or county highways, town or county forest roads, powerline rights-of-way, designated snowmobile trails, and private property.
5. Where necessary, care and caution must be exercised to prevent damage to any residual species.
6. Trees designated not to be cut may not be removed for any reason without permission from Marinette County.
7. Trees that become hung-up in trees designated not to be cut must be removed with logging equipment.
8. Please note special cutting time periods.
9. Other specifications shall apply to specific sales as noted.

HETEROBASIDION ROOT DISEASE (Annosum Root Rot)

Heterobasidion Root Disease is a serious disease that is causing conifer mortality in at least 20 counties in Wisconsin, mainly by infecting freshly cut stump surfaces in pine, spruce and fir stands. Marinette County is committed to preventing its establishment and all new contracts will require contractors to chemically treat fresh-cut conifer stumps with SPORAX or CELLU-TREAT as directed in each individual sale prospectus. Marinette County will furnish the necessary chemical, dye, and hand-application equipment. Treatment shall be performed by a certified pesticide applicator, must be completed within 24 hours of cutting, and is required from April 1st to December 1st.

VARIABLE UTILIZATION BIDS

Volume estimates by utilization (species and diameter) classes will be listed. All bids must be based on round wood or whole tree not a combination of the two.

LUMP SUM SALES

Lump sum bids will be accepted on Tract #9-18 only.

CHIPS

Chipping of residual materials will only be available as an option on any job that has chips listed as available in the individual sale prospectus. Chip bids will not be included as part of the total bid value, unless the sale is listed with estimated whole tree volumes. Bidders interested in adding chips to eligible sales should contact the forester or the Forestry Office to attain estimated chip volumes or for more details.

ADDITIONAL INFORMATION

Sale will be based on price per cord, per thousand board feet, or per ton. Timber to be cut will be designated by minimum cutting diameter, or heights, or by marking. Interested persons should be sure to secure full information on cutting regulations and forms for bidding by writing to or calling the County Forestry Office, 501 Pine Street, Peshtigo, Wisconsin 54157 (715-732-7525). **The Wausaukee Ranger Station has been closed to the public as a service center. To receive timber sale information and maps from foresters at Wausaukee you must call (715) 856-9178 or (715) 856-9156 for an appointment.**

Bids must be made on the form prescribed by the Committee and must be plainly marked on the outside "SEALED BID - TIMBER STUMPAGE." All bids should be enclosed in one envelope. Please note that bid forms are specific for each job. A person may bid on any or all of the designated sale areas. If a person bids on more jobs than s/he desires to be awarded, a written statement indicating the job or jobs preferred should be included with the bid. The Committee will withdraw bids of secondary choice if properly instructed.

Marinette County will not award a bid to a contractor who is not fully bonded on existing contracts and unless all scale dated more than thirty days prior to the bid opening has been turned in and paid in full.

A CERTIFIED CHECK, CASHIER'S CHECK, BANK OR POSTAL MONEY ORDER OR PERSONAL CHECK, MADE PAYABLE TO THE MARINETTE COUNTY TREASURER, IN THE AMOUNT OF AT LEAST 10% OF THE TOTAL BID MUST ACCOMPANY EACH BID. CASH WILL NOT BE ACCEPTED. LETTERS-OF-CREDIT IN THE AMOUNT OF 25% OF THE BID ARE ALSO ACCEPTABLE. THIS DEPOSIT WILL BE FORFEITED IF THE SUCCESSFUL BIDDER FAILS TO SIGN THE CONTRACT OFFERED WITHIN THIRTY DAYS. CHECKS AND MONEY ORDERS WILL BE RETURNED TO UNSUCCESSFUL BIDDERS AFTER THE SALE.

The successful bidder must be prepared to deposit an additional 15% of the bid within thirty days. The total bond deposit (25 percent) shall be held as evidence of the bidder's intention to faithfully carry out the provisions of the contract. This sum shall be refunded upon satisfactory completion of the contract. A performance bond or an irrevocable letter of credit, from an authorized bank, may be accepted in lieu of a cash deposit. Details on requirements may be obtained from the County Forestry Office.

The successful bidder must furnish a certificate of proof that s/he has Worker's Compensation Insurance at the time s/he is awarded a contract. This insurance must cover the contract period (including extensions) and all employees on the sale area. **All contractors are required to have Worker's Compensation Insurance including contractors with no employees.**

Contractors who bid as partners must provide a copy of their partnership papers at the time they are awarded a contract.

Committee policy requires that all wood must be scaled by Marinette County before being removed from the sale area or be purchased as a lump sum sale. Special exceptions must be approved by the Forest Administrator. Violation could result in citation to contractor.

New contractors who are successful bidders on more than one job are subject to the Committee's policy of only working on one job at a time, and are subject to paying scale in advance of hauling until satisfactory performance is established.

Bids will be received until 4:30 p.m., on Monday, November 5th, 2018 in the Forestry Office, 501 Pine Street, Peshtigo, Wisconsin. No bids will be accepted after the above stated hour. Bids will be publicly opened at 9:00 a.m., on **Tuesday, November 5th, 2018**. Action on bids received will be taken by the Committee at their meeting on the morning of **Wednesday, November 7th, 2018**. Successful bidders are requested to call for an appointment to sign contracts the following week. There will be no public auction of unsold jobs.

Marinette County is updating the current timber sale contract. The updated version will be available at www.marinettecounty.com no later than November 1st, 2018.

The Marinette County Infrastructure Committee reserves the right to reject any or all bids and to accept the bids which they deem most reliable.

3 - Year Contract - Look at specific dates in writeup for more information.

Cutting Requirements:

Coppice Harvest (Do not cut Red Pine, White Pine, Hemlock, or Cedar. Cut all other stems 2” and greater in size—excluding Balsam Fir, non-merchantable Balsam Fir may be left uncut. The cutting of Cedar will most likely be necessary for operations in portions of sale area. Cutting operational Cedar is permitted.) **Oak Shelterwood** (Do not cut trees marked with Purple Paint. Don’t not cut Red or White Pine. Cut all other trees containing 1 or more 100” sticks.) **Re-Cut Oak** (Cut all trees marked with Orange Paint.) **Coppice w/standards** (Do not cut Oak, Red Pine, White Pine, Hemlock, or Cedar. Cut all other stems 2” and greater in size. Cut trees marked with Orange Paint.)

Sale Notes: All landings and decking areas are in place. No new stubs or additions to existing landings and stubs will be allowed. This means decking room is limited and in some sale areas wood will have to be hauled in order to create more room to deck. Decking along a town road is not permitted. **The Oak Shelterwood & Re-Cut Oak areas as indicated on map MUST be harvested by March 1st of _____. The rest of the job has a 3 year Contract timetable.** Any operational cedar—there will likely be some—will be scaled as Balsam Fir. All Maple, Ash, Basswood, Elm, Birch, Ironwood, Cherry, and Beech will be scaled as Mixed Hardwood. Balm of Gilead will be scaled as Aspen. All Oak will be scaled as Red Oak. Spruce and Balsam Fir will be scaled separate. Any other operational tree species not listed will be scaled as Balsam Fir.

Oak Wilt Restriction - No harvesting between April 1 and July 15 for entire sale.

Cutting Requirements:

Aspen Coppice: Harvest all stems with one stick or more to a 4 inch top except for any Red or White Pine. Do not cross any red or blue lines with harvesting equipment, except for an approved stream crossing. Dry or frozen ground conditions may be necessary to avoid rutting in several locations of the harvest units. All water quality BMP's must be followed when crossing the stream at the approved stream crossing location.

*A skidding bridge may be provided by the Marinette County Forestry Department, if requested and available at the time of harvest, to cross the small stream.

Scale Notes:

All dead oak will be scaled as Oak, approximately 10 cords.

Ryan Bourassa (715) 923-8891

Cutting Requirements:

Aspen Coppice Harvest Unit: Harvest all stems 2 inches and larger, except for Red or White Pine unless marked with orange paint. Harvest all Red Pine marked with orange paint. Merchandize all stems to a 4 inch top. Dry or Frozen ground conditions are recommended during harvest operations. **Spruce Thin:** Harvest every third row. Rows to be harvested have been designated for harvest with orange paint. In addition, harvest all other species found within the spruce plantation, merchandize all stems to a 4 inch top.

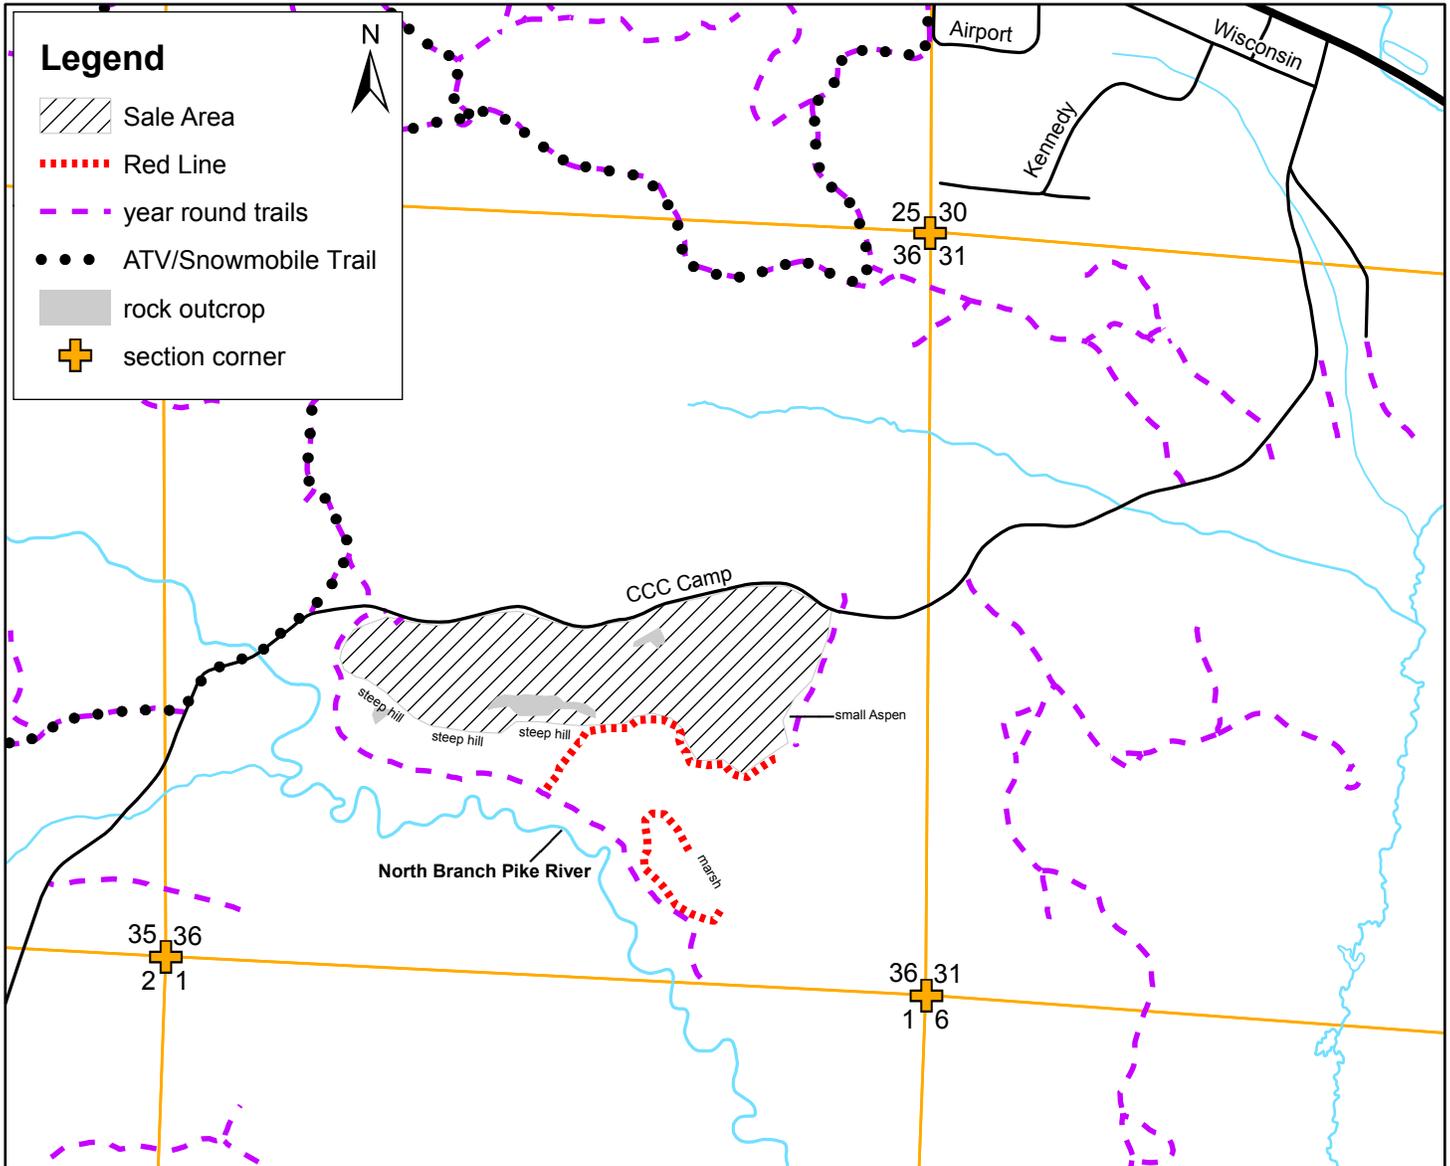

*All tops/slash must be lopped or crushed to less than 3 feet in height across all harvest units.

Scale Notes:

Red Pine and Jack Pine will be scaled as Fir, approximately 10 cord of Jack Pine and 5 cord of Red Pine.

**** Oak Wilt Restriction on Entire Job, No Harvesting or Skidding April 1st to July 15th ****

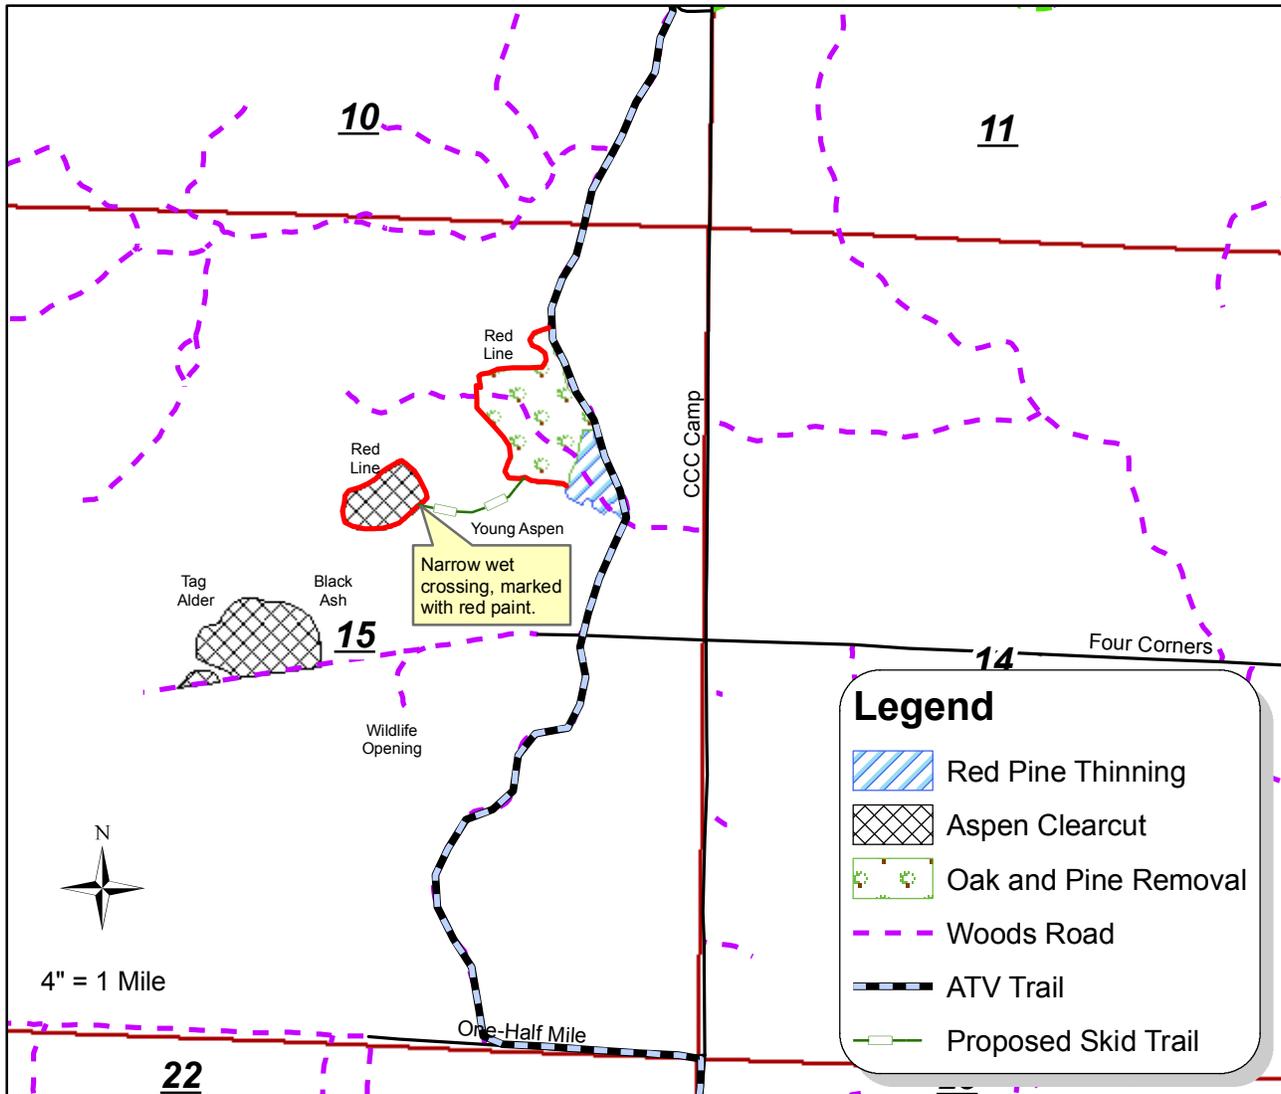

Cutting Requirements:

Coppice Harvest (Do not cut Red Pine, White Pine, Hemlock, or Cedar. Cut all other stems 2" and greater in size—excluding Balsam Fir, non-merchantable Balsam Fir may be left uncut. The cutting of Cedar will most likely be necessary for operations in portions of sale area. Cutting operational Cedar is permitted.) **Oak Shelterwood** (Do not cut trees marked with Purple Paint. Don't not cut Red or White Pine. Cut all other trees containing 1 or more 100" sticks.) **Re-Cut Oak** (Cut all trees marked with Orange Paint.) **Coppice w/standards** (Do not cut Oak, Red Pine, White Pine, Hemlock, or Cedar. Cut all other stems 2" and greater in size. Cut trees marked with Orange Paint.)

Sale Notes: All landings and decking areas are in place. No new stubs or additions to existing landings and stubs will be allowed. This means decking room is limited and in some sale areas wood will have to be hauled in order to create more room to deck. Decking along a town road is not permitted. **The Oak Shelterwood & Re-Cut Oak areas as indicated on map MUST be harvested by March 1st of 2019.** The rest of the job has a 3 year Contract timetable. Any operational cedar—there will likely be some—will be scaled as Balsam Fir. All Maple, Ash, Basswood, Elm, Birch, Ironwood, Cherry, and Beech will be scaled as Mixed Hardwood. Balm of Gilead will be scaled as Aspen. All Oak will be scaled as Red Oak. Spruce and Balsam Fir will be scaled separate. Any other operational tree species not listed will be scaled as Balsam Fir.

Acres To Cut 103
Sale Name The Game

4 Inches = 1 Mile

Forester: Andy Lange
715-923-8781

Species	Estimated Volume
Scrub Oak	1000 Cords
Mixed Hardwood	750 Cords

CUTTING REQUIREMENTS:

Cut all trees that contain 1 or more pulp sticks in this sale area EXCEPT no cutting of Red Pine, White Pine, and any White Oak. Care MUST be taken not damage to much of the White Pine regeneration. There will be no brush left across any red line. Any new roads built will only be done with the permission of the forester in charge. There is no decking on the town road. Crossing the road will only be allowed with the towns permission. There will be no working on this sale from April 1st to July 15th due to Oak Wilt concerns.
