

## NOTICE OF TIMBER SALE

Sealed bids will be received by the County Forest Administrator, on behalf of the Marinette County Forestry and Outdoor Recreation Committee, for the sale of timber stumpage on the following numbered areas of county forest and county land in accordance with conditions set by the Committee. All contracts will expire on September 30, 2019, except where noted. Except for lump sum jobs, contract extensions may be granted upon written request, unless otherwise noted prices increase in accordance with committee policy.

**TRUCKING WILL BE ALLOWED FROM COUNTY C TO US HWY 8 THROUGHOUT THE YEAR EXCEPT FOR PERIODS OF SEASONAL WEIGHT RESTRICTIONS. CONTACT THE MARINETTE COUNTY HIGHWAY DEPARTMENT FOR SPECIFIC INFORMATION BEFORE YOU PLAN ON TRUCKING.**

NOTE: IT IS ILLEGAL TO HAUL MORE THAN THE LEGAL WEIGHT LIMIT FROM ANY PUBLIC OR PRIVATE LANDS ONTO PUBLIC ROADS. THERE IS AN INCREASING AWARENESS OF ROAD DAMAGE TO TOWN AND COUNTY ROADS ACROSS WISCONSIN. LOGGING TRUCKS ARE BEING BLAMED FOR MUCH OF THIS DAMAGE.

NOTE: IT IS ILLEGAL TO MARK TREES ON A TIMBER SALE. NOT ONLY DOES THIS PRACTICE VIOLATE THE FORESTRY ORDINANCE BUT IT ALSO CAN CREATE CONFUSION AT THE TIME OF HARVEST.

### **LOGGER TRAINING**

The recent forest certification effort on our public lands has heightened the requirement to “*requiring* appropriate training” of its logging contractors. This is needed to maintain certification under the Sustainable Forestry Initiative® SFI-01617 SFI 100% certification standard. The requirement will apply to all Marinette County timber sales on county land sold after January 1, 2006. Marinette County Forestry will adopt training specifications of the Wisconsin SFI® Training Standard. This will align the County with requirements already in place for most of Wisconsin’s forest industry. The Forest Industry Safety and Training Alliance (FISTA) will continue to maintain loggers training records and provide much of the training. **Current SFI Training Certificates must be on file with the Forestry Office at all times.**

### **SNOWPLOWING**

All forest roads used or constructed by a logging contractor shall be operated, maintained including snowplowing and restored prior to termination of the contract in a manner satisfactory to the Administrator.

### **SNOWMOBILE & ATV TRAILS**

If a recreational trail passes through a sale area you must:

Maintain the area in a safe manner for recreational vehicles. Do not block the trail at any time. Keep the trail clear of slash and debris on daily basis. Park equipment and vehicles at a safe distances from the trail. Decking on recreation trails is allowed only as a last resort and then as far off the trail as possible. (Snowmobile trail) Do not plow snow down to bare ground. Try to maintain a packed snow base as much as possible.

## CUTTING SPECIFICATIONS - ALL SALES

1. No tops are to be left hung-up.
2. All coniferous slash is to be lopped to within 30 inches of the ground, unless otherwise specified.
3. There shall be no skidding or decking of products on or across any town or county road, including ditches, or across any free flowing stream.
4. All state slash laws must be observed, particularly along any streams, state or county highways, town or county forest roads, powerline rights-of-way, designated snowmobile trails, and private property.
5. Where necessary, care and caution must be exercised to prevent damage to any residual species.
6. Trees designated not to be cut may not be removed for any reason without permission from Marinette County.
7. Trees that become hung-up in trees designated not to be cut must be removed with logging equipment.
8. Please note special cutting time periods.
9. Other specifications shall apply to specific sales as noted.

## ANNOSUM ROOT ROT

**Annosum Root Rot** is a serious disease that is causing conifer mortality in at least 20 counties in Wisconsin, mainly by infecting freshly cut stump surfaces in pine, spruce and fir stands. Marinette County is committed to preventing its establishment and all new contracts will require contractors to chemically treat fresh-cut conifer stumps with SPORAX or CELLU-TREAT as directed in each individual sale prospectus. Marinette County will furnish the necessary chemical, dye, and hand-application equipment. Treatment shall be performed by a certified pesticide applicator, must be completed within 24 hours of cutting, and is required from April 1<sup>st</sup> to December 1<sup>st</sup>.

## VARIABLE UTILIZATION BIDS

Volume estimates by utilization (species and diameter) classes will be listed. All bids must be based on round wood or whole tree not a combination of the two.

## LUMP SUM SALES

None.

## CHIPS

Chipping of residual materials will only be available as an option on any job that has chips listed as available in the individual sale prospectus. Chip bids will not be included as part of the total bid value, unless the sale is listed with estimated whole tree volumes. Bidders interested in adding chips to eligible sales should contact the forester or the Forestry Office to attain estimated chip volumes or for more details.

## ADDITIONAL INFORMATION

Sale will be based on price per cord, per thousand board feet, or per ton. Timber to be cut will be designated by minimum cutting diameter, or heights, or by marking. Interested persons should be sure to secure full information on cutting regulations and forms for bidding by writing to or calling the County Forestry Office, 501 Pine Street, Peshtigo, Wisconsin 54157 (715-732-7525). **The Wausaukee Ranger Station has been closed to the public as a service center. To receive timber sale information and maps from foresters at Wausaukee you must call (715) 856-9178 or (715) 856-9156 for an appointment.**

Bids must be made on the form prescribed by the Committee and must be plainly marked on the outside "SEALED BID - TIMBER STUMPAGE." All bids should be enclosed in one envelope. Please note that bid forms are specific for each job. A person may bid on any or all of the designated sale areas. If a person bids on more jobs than s/he desires to be awarded, a written statement indicating the job or jobs preferred should be included with the bid. The Committee will withdraw bids of secondary choice if properly instructed.

**Marinette County will not award a bid to a contractor who is not fully bonded on existing contracts and unless all scale dated more than thirty days prior to the bid opening has been turned in and paid in full.**

A CERTIFIED CHECK, CASHIER'S CHECK, BANK OR POSTAL MONEY ORDER OR PERSONAL CHECK, MADE PAYABLE TO THE MARINETTE COUNTY TREASURER, IN THE AMOUNT OF AT LEAST 10% OF THE TOTAL BID MUST ACCOMPANY EACH BID. CASH WILL NOT BE ACCEPTED. LETTERS-OF-CREDIT IN THE AMOUNT OF 25% OF THE BID ARE ALSO ACCEPTABLE. THIS DEPOSIT WILL BE FORFEITED IF THE SUCCESSFUL BIDDER FAILS TO SIGN THE CONTRACT OFFERED WITHIN THIRTY DAYS. CHECKS AND MONEY ORDERS WILL BE RETURNED TO UNSUCCESSFUL BIDDERS AFTER THE SALE.

The successful bidder must be prepared to deposit an additional 15% of the bid within thirty days. The total bond deposit (25 percent) shall be held as evidence of the bidder's intention to faithfully carry out the provisions of the contract. This sum shall be refunded upon satisfactory completion of the contract. A performance bond or an irrevocable letter of credit, from an authorized bank, may be accepted in lieu of a cash deposit. Details on requirements may be obtained from the County Forestry Office.

The successful bidder must furnish a certificate of proof that s/he has Worker's Compensation Insurance at the time s/he is awarded a contract. This insurance must cover the contract period (including extensions) and all employees on the sale area. **All contractors are required to have Worker's Compensation Insurance including contractors with no employees.**

**Contractors who bid as partners must provide a copy of their partnership papers at the time they are awarded a contract.**

Committee policy requires that all wood must be scaled by Marinette County before being removed from the sale area or be purchased as a lump sum sale. Special exceptions must be approved by the Forest Administrator. Violation could result in citation to contractor.

New contractors who are successful bidders on more than one job are subject to the Committee's policy of only working on one job at a time, and are subject to paying scale in advance of hauling until satisfactory performance is established.

**Bids will be received until 4:30 p.m., on Monday, June 5<sup>th</sup>, 2017** in the Forestry Office, 501 Pine Street, Peshtigo, Wisconsin. No bids will be accepted after the above stated hour. Bids will be publicly opened at 9:00 a.m., on ***Tuesday, June 6<sup>th</sup>, 2017.*** Action on bids received will be taken by the Committee at their meeting on the morning of ***Thursday, June 8<sup>th</sup>, 2017.*** Successful bidders are requested to call for an appointment to sign contracts *the following week.* There will be no public auction of unsold jobs.

The Marinette County Forestry and Outdoor Recreation Committee reserves the right to reject any or all bids and to accept the bids which they deem most reliable.

NCou thtianrvge Isntisntgr,u scktiiodndsins:g, hauling or road building between April 1 and December 1.

Within red

oak thinning cutting unit: Cut all trees marked with orange paint, all aspen, all ironwood, and all trees greater than 1" DBH within pre-designated (purple marked) gaps. Within aspen coppice cutting units: Cut all trees greater than 2" DBH. Within oak/northern hardwood shelterwood cutting unit: cut all trees greater than 2" DBH except those marked with green paint. Some areas must have frozen or very dry ground conditions before harvesting is allowed. Logging operations may be suspended at any time if soil damaged is occurring or likely to occur. The location of all roads and landings must be approved prior to construction (this includes use of hiking trails). All roads and landings must be smoothed and may require seeding prior to sale closeout. No logging debris may be left in any field or opening. No slash may be left within 20 feet of any hiking trail. Any damage done to gates must be repaired by the contractor. Main gate into the park must be closed at all times and locked when contractor is not onsite. Logging contract will have a three year duration to allow sufficient time to complete this "winter only" sale. All sawtimber >=10" diameter (small end) will be scaled as logs. All aspen will be scaled on a straight cordwood basis.

**Cutting Requirements -Oak Stand:** Cut all maple, birch, ash, spruce, aspen, balsam fir, and dead and live oak. Cut all orange marked red, white and jack pine. Do not cut any purple marked trees (scrub oak pine) or white oak. Balsam fir, all pine, and spruce will be scaled as spruce. Dead oak will be scaled as live oak. Chipping of tops will not be allowed. Any tree with nails, spikes, or old deer stand will be cut and left. Oak Wilt restriction: No cutting or skidding from April 1 to July 15. No tops are to be left hung up or across any road or red line. County forest road # 217 is an ATV-snowmobile trail requiring to be kept free of debris daily, and leave a 4" snow base in winter. Care must be taken around private property markers. All landings and truck turn-arounds must have prior approval. Due to oak and aspen regeneration whole tree skidding will not be allowed. All new roads and roads which were grown shut will be bermed shut at the conclusion of the timber sale.

OCuaktt iTnhg iInnsitnrgu:c Ctount sa:ll trees marked with Orange Paint at dbh and stump. There is an Oak Wilt

Pocket within this stand. Pocket will be identified and marked out with Red and Blue Paint by July 15th 2017. Contractor will be required to cut and utilize these trees. Stumps will be treated by Marinette County following harvest. Aspen: Cut all trees Except Red Pine, White Pine, Oak, and Cedar. Frozen Ground Restriction: This area is to be treated with the same prescription as the Aspen area, but will require Frozen Ground conditions. Notes: All landings and road work must be approved by forester before any work is to be done. There is an Oak Wilt Restriction in the Oak thinning portion of the sale. No cutting or skidding will be allowed April 1st to July 15th. Stump height in the Oak Thinning shall not exceed 12" in height. Contractor will be required to go back and handsaw stumps exceeding this. No decking of wood will be allowed on Snowmobile/ATV trail or the Town Road. Ash, Maple, Birch, Cherry, Elm, Beech, will be scaled as Mixed Hardwood. Any tamarack will be scaled as Balsam Fir. Balm of Gilead will be scaled as Aspen. All other species will be scaled separate.

Cut all trees 2" and larger. Utilization to at least a 4" top. Leave all snags that are not a safety risk standing. All fir will be scaled as spruce.

Cut all trees marked on two sides and at the stump with orange paint. Treat each stump for Annosum (HRD) within 24 hours of being cut per MCF Guidelines.

Keep all trails and roads free of slash and logging debris. All new roads and previously impassable roads will be bermed at the conclusion of the sale.

Aspen stand is restricted to very dry or frozen ground conditions due to soft soils.

Cut all pine marked with a spot of orange paint at breast and stump height. Keep slash lopped or crushed to within 30" of the ground. Exercise care and caution to avoid damage to residual trees when cutting and skidding. Keep woods trails and roads free and clear of slash. Decking along town roads is allowed so long as the respective townships provide consent to do so. Heterbasidion Root Disease (Annosum) treatment is required.

**Oak Harvest Area:** Cut all trees that contain one or more pulp sticks. Do not cut any Red or White Pine. No cutting for April 1st to July 15th due to oak wilt restrictions. The areas with the majority aspen will be allowed to be cut during oak wilt (about 20 acres).

**Pine Harvest Area:** Cut only trees that are marked with orange paint at DBH and the stump. Treatment of conifer stumps for Heterbasidion Root Disease (Annosum Root Rot) will be required from April 1st to November 30th. These dates are subject to change depending on the current weather conditions at any given time.

**Whole Sale:** There is a horse trail that uses the same area as this sale. Care must be given to the users if this trail is going to be used during the sale. There is no decking of wood or operating machinery on the town road without the towns approval. All new roads in the sale must be approved by the forester in charge. Care must be taken not to damage any of the residual trees.

**Scrub Oak Clearcut:** Cut all trees including live and dead oak, maple, ash, birch, jack pine, red pine, white pine, balsam fir and spruce. DO NOT cut any purple marked trees (oak and pine), hemlock or cedar. Care must be taken not to damage any residual trees. Balsam fir (about 30 cords) will be scaled as white pine. Spruce will be scaled as jack pine. There is a small amount of dead oak that is included with the oak volume. All trees will be taken to a 4" top and the scrub oak logs will be taken to a 10" dib on the small end. There will be no tops left hung up or across any trail, red line, or road right-of-way. All trails will be kept free and clear of debris. Vehicle traffic under the utility lines is discouraged. No decking of wood or soil disturbance in the grass openings along the red line. **Oak wilt restriction:** No cutting or skidding of wood from April 1 to July 15. Extremely dry or frozen ground restriction to cross the drainages or lowland edges. Chipping of tops will not be permitted. Any new roads or roads grown shut will be bermed at the conclusion of the timber sale. No whole tree skidding will be allowed.

**Oak Harvest:** Cut all trees including dead and live oak, maple, aspen, birch, balsam fir, spruce, jack pine, and ash. Do not cut red or white pine or purple marked trees. **Oak Wilt restriction:** No cutting or skidding from April 1 to July 15.

**Red Pine Harvest:** Cut all pine trees marked with orange paint at the sump and breast height. Care must be taken not to damage residual growth where the red pine and oak stands meet. Balsam fir, spruce, and jack pine (approximately 10 cords total) will be scaled as red pine. All trees will be taken to a 4" top. Due to regeneration of the stand, whole tree skidding will not be allowed. There will be no tops left hung up or across any trail, red line, or road right-of-way. All roads will be kept free of debris daily. Forest road #217 is an ATV/Snowmobile trail, leave a 4" snow base. **Annosum Root Rot (HRD):** All pine stumps will be treated to prevent Annosum Root Rot as outlined in the contract. All new roads and roads grown shut will be bermed at the conclusion of the timber sale.

 FIR 80 cords  
 RED OAK 30 cords  
 RED OAK 7 MBF  
 BASSWOOD 52 MBF  
 MIXED HDWD 10 MBF

## SCALING NOTES

Five cords of spruce will be scaled as fir.  
 Mixed hardwood pulp and logs include red maple, ash, white birch, beech, and a small amount of hard maple.

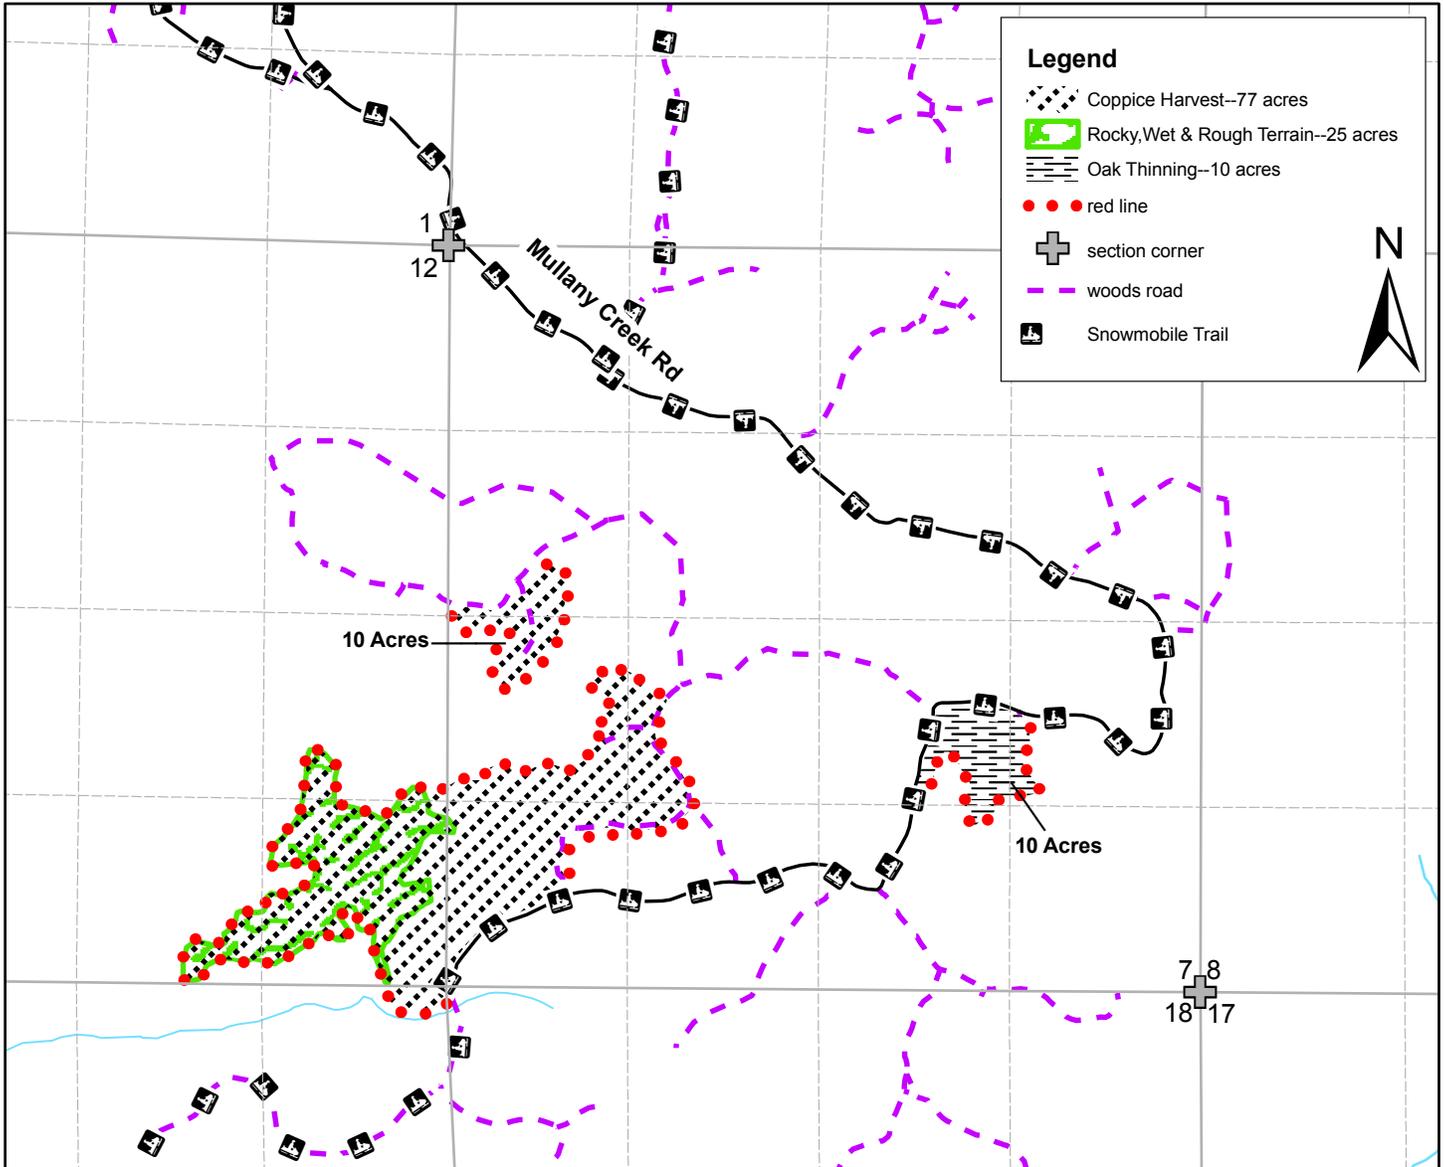

## CUTTING REQUIREMENTS:

In the ASPEN-RED MAPLE CLEARCUT cut all trees 2" DBH and larger EXCEPT oak, hemlock, yellow birch, and purple marked trees. All trees with a purple "X" will be cut at 5 feet above the ground and the entire tree laid down with the cut end touching the stump. There are 14 trees marked with an "X". These are grouse drumming logs. In the CEDAR CLEARCUT cut all trees 2" DBH and larger, EXCEPT balm, hemlock, and yellow birch. In the RED OAK-NORTHERN HARDWOOD SHELTERWOOD-Cut all trees 2" DBH and greater, EXCEPT do not cut aspen or purple marked trees. No harvest activities in the 14 acre shelterwood, including road building, from April 1st to November 1st. MCF will do scarification in October which may cause bent over saplings to be present in the stand before logging. In the NORTHERN HARDWOOD THINNING cut all ironwood, aspen, fir, white birch, and all trees marked with orange paint. Keep all slash off of the 6' wide horse trail wherever it occurs, and do not damage any trail marking signs.

 Acres to Cut 46  
 Sale Name Pike River

4 Inches = 1 Mile

Forester: Andy Lange  
 715-923-8781

<u>Species</u>	<u>Estimated Volumes</u>
Oak	480 Cords
Mixed Hardwood	100 Cords

**CUTTING REQUIREMENTS:**

**Cut all trees that contain 1 or more pulp sticks. DO NOT cut any Red or White pine. No cutting is allowed from April 1<sup>st</sup> to July 15<sup>th</sup> due to oak wilt concerns in this stand. No tops will be left across the purple or red cut lines. There is no decking allowed on Pike River Dr. unless there is prior approval by the town. All new roads that are built need to be approved by the county forester. The snowmobile trail should not be plowed to bare soil. All new roads and old roads which were opened up will be bermed at the end of the harvest. Mixed Hardwood contains birch, aspen and red maple.**

Mapped by: Phil Fritz

**Scrub Oak Clearcut:** Cut all trees including live and dead oak, maple, ash, birch, jack pine, red pine, white pine, balsam fir and spruce. DO NOT cut any purple marked trees (oak and pine), hemlock or cedar. Care must be taken not to damage any residual trees. Balsam fir (about 30 cords) will be scaled as white pine. Spruce will be scaled as jack pine. There is a small amount of dead oak that is included with the oak volume. All trees will be taken to a 4" top and the scrub oak logs will be taken to a 10" dib on the small end. There will be no tops left hung up or across any trail, red line, or road right-of-way. All trails will be kept free and clear of debris. Vehicle traffic under the utility lines is discouraged. No decking of wood or soil disturbance in the grass openings along the red line. **Oak wilt restriction:** No cutting or skidding of wood from April 1 to July 15. Extremely dry or frozen ground restriction to cross the drainages or lowland edges. Chipping of tops will not be permitted. Any new roads or roads grown shut will be bermed at the conclusion of the timber sale. No whole tree skidding will be allowed.

<u>Species</u>	<u>Estimated Volume</u>

<u>Species</u>	<u>Estimated Volume</u>
Scrub Oak	375 Cords
Red Pine	360 Cords
Mixed Hardwood	100 Cords
Aspen	35 Cords
<b>Total</b>	<b>870 Cords</b>

**Oak Harvest:** Cut all trees including dead and live oak, maple, aspen, birch, balsam fir, spruce, jack pine, and ash. Do not cut red or white pine or purple marked trees. **Oak Wilt restriction:** No cutting or skidding from April 1 to July 15.

**Red Pine Harvest:** Cut all pine trees marked with orange paint at the sump and breast height. Care must be taken not to damage residual growth where the red pine and oak stands meet. Balsam fir, spruce, and jack pine (approximately 10 cords total) will be scaled as red pine. All trees will be taken to a 4" top. Due to regeneration of the stand, whole tree skidding will not be allowed. There will be no tops left hung up or across any trail, red line, or road right-of-way. All roads will be kept free of debris daily. Forest road #217 is an ATV/Snowmobile trail, leave a 4" snow base. **Annosum Root Rot (HRD):** All pine stumps will be treated to prevent Annosum Root Rot as outlined in the contract. All new roads and roads grown shut will be bermed at the conclusion of the timber sale.
