6. **Radio Interoperability and status of sub-committee**
Mike Folgert reported that 10 county fire departments have responded reference the frequency they are using. Many FD's don't have the state frequency, but they all do have the local county frequency. Fire Department countywide protocols are needed to ensure continuity from agency to agency and communication with dispatch. Folgert will attempt to identify what simulcast frequencies should be cleared to another channel, i.e. fire ground, etc. Folgert will work with a group of firefighters to develop a countywide procedure. This will also assist with fire mutual aid. Rescue and fire need to train to communicate with each other while operating on separate frequencies too. Zimmerman and staff should have the authority to remind radio users to move to alternate frequencies. No action.

Motion (Dave Bendtschneider/Ken Keller) to approve the election of a chairperson to be held at the first meeting following the reorganization of the Marinette County Board and bi-annual election. Motion carried.
